

ABDULBASIT ADEWALE BUHARI

Dubai, UAE • +971 50 797 1051 • basitbuhari@gmail.com • [LinkedIn](#)

PROFESSIONAL SUMMARY

Recent Computer Science graduate pursuing an MSc in Applied Cybersecurity at the University of Wollongong Dubai, with hands-on experience in cloud infrastructure, L1 technical support, systems administration, and network operations. Skilled in troubleshooting technical issues, supporting cloud environments, performing SSH-based administration, assisting with firewall and VPN-related tasks, and working across virtualization platforms. Strong communication, analytical, and problem-solving skills, with the ability to understand technical requirements, explain solutions clearly, and collaborate effectively across technical and business teams.

CORE SKILLS

Cloud Infrastructure | OpenStack | CloudStack | Proxmox | Virtualization | VM Provisioning | Technical Support | Ticketing Systems | Linux & Windows Administration | SSH | Networking (TCP/IP, DNS, VLANs, Subnetting) | Firewall Configuration (Sophos, Untangle, pfSense) | VPN Support | AnyDesk Remote Support | Python Scripting | Automation | REST APIs | Flask | Git | Cybersecurity Fundamentals | SIEM Exposure (Splunk, Microsoft Sentinel) | Logging & Monitoring | Documentation | Cross-Functional Collaboration | Communication | Problem-Solving

EXPERIENCE

CloudHost Technology LLC – DevOps Intern / L1 Support Engineer | *Business bay, Dubai, UAE*

April 2026 – Present

- Worked on cloud Infrastructure using **Openstack** and **Cloudstack** for VM provisioning, network, and resource allocation.
- Delivered fast-response **L1 support** through ticketing systems.
- Performed **Linux Administration** and remote diagnostics using **SSH** across cloud and server environments.
- Created firewall backups for **Sophos** and **Untangle** environments, supporting system continuity and operational readiness
- Assisted with **VPN** user support, firewall rule updates, and port configuration, including exposure to **pfSense** administration.
- Used **AnyDesk** for remote troubleshooting and explored Proxmox by creating and testing virtual instances
- Gained practical exposure to migration activity from **OpenStack** to **CloudStack**, strengthening understanding of cloud platforms operations and transition support.

North Land Institute of Training – IT Intern / Assistant to Project | *Dubai Knowledge Park, Dubai, UAE*

September 2025 – March 2026

- Supported deployment of 30+ enterprise systems, contributing to smoother setup and improved operational readiness.
- Assisted with **VLAN segmentation**, structured cabling, and infrastructure support to improve network organization and reliability
- Produced technical documentation and supported branch infrastructure rollout in collaboration with internal and external stakeholders.

Fujairah Municipality – Lead Developer (Cybersecurity & Automation) | *Contract*

April 2024 – December 2024

- Built a cloud-based backend using **Flask and AWS Lambda** and developed logging workflows to improve system visibility and reliability
- Developed automation and data processing solutions for sensitive municipal workflows using secure and structured system design

AMS Integrated Solutions — IT Intern | *Jafza South, Dubai*

June 2022 –September 2022

- Completed **350+ hours** in automation engineering and system operations, including Python scripting and migration support activities

EDUCATION

MSc Applied Cybersecurity (In Progress), University of Wollongong in Dubai | **GPA: 4.0**

Apr 2026 – Present

BSc Computer Science (Cybersecurity), University of Wollongong in Dubai | **WAM: 74**

Jan 2022 – Jun 2025

CERTIFICATIONS & ACHIEVEMENTS

- **ISC² Certified in Cybersecurity (CC)** | **PJPT (In Progress)** | **IBM Threat Intelligence & Hunting** | **Dante Level 1 Networking** | **TryHackMe Advent of Cyber 2025** | **Microsoft Azure AI and Cloud certification preparation in progress**
